

## **Marten Duhoux**

Marten Duhoux is the Chair of the Manitoba Chapter of the Canada Green Building Council, which is promoting a sustainable build environment through education, advocacy and the development of tools.

Marten is also a project manager at Friesen Tokar Architects + Landscape + Interior Designers and is involved in a variety of projects, ranging from public buildings to affordable housing, community projects and interpretive centres. Marten enjoys the challenge of balancing the diverse needs of all of the participants in a project.
