

Léo Jr. Nicolas

Mr. Léo Jr. Nicolas, B. Sc. (Honours), M. Sc. is the manager of the Occupational Health and Safety group since April 2009. Mr. Nicolas began his career with Pinchin in April 2004 as Project Manager of the Indoor Air Quality and Microbial Contamination group.

Mr. Nicolas graduated with a Bachelor of Science Honours in Microbiology and Master of Science in Soil Science, both from the University of Manitoba. Mr. Nicolas began his career as an agrologist with a local agricultural engineering firm, working with various livestock producers in Manitoba in either developing or expanding existing operations which included conducting soils investigation, designing and inspecting the construction of manure storage, preparing Environmental Impact Assessments and Phase I Environmental Site Assessments, developing manure management plans and the coordination of these projects.

More recently, he has broadened his field of expertise to include assessments, consulting and management responsibilities in the field of mould, indoor air quality and occupational health and safety.
