

Alex Stuart

Alex Stuart is President of Global Wind Group Inc., a Winnipeg-based micro-wind energy company. With four years of experience in the renewable energy sector Alex has developed an expertise in small wind energy. Alex has been an expert speaker at several renewable energy conferences across Canada.

Born and raised in Toronto, Ontario, Alex attended the University of Guelph and graduated with a B.Sc. in Human Kinetics. After graduation Alex relocated to Winnipeg, Manitoba to work for the Provincial Government as an Ergonomist. Alex has been an expert speaker presenting to more than 3000 people, and has been an integral part of provincial injury prevention strategies. An expert in work efficiency, and government policy, Alex brings a high-level perspective to Global Wind Group Inc. With three years of research and development in Global Wind Group Inc., Alex has kept product focus on meeting the renewable energy needs of the customer in an affordable and accessible way.
