

2023

MEIA Cleantech Conference

Funding Opportunities Hub

The MEIA is proud to present the **Funding Opportunities Hub**. The **Funding Opportunities Hub** is a free service to help link attendees of the MEIA Cleantech Conference with potential funding opportunities.

Does your organization provide funding that would apply to the following:

- Wage programs
- Training support
- Call for Proposals – relating to natural resources, energy, or the environment
- Other funding opportunities for Manitoba businesses, non-profits, First Nation Communities & Indigenous Groups, Municipalities, Environmental Groups and Organizations, SMEs, or cleantech startups

Please confirm your participation in the **Funding Opportunities Hub** by contacting Heather Roscoe at hroscoe@meia.mb.ca.

Details

Information about your funding programs will be included in the 2023 MEIA Cleantech Conference **Funding Opportunities Hub** brochure, distributed to conference attendees.

Information about the funding opportunities will also be hosted on the [MEIA Cleantech Conference](#) website so they can be promoted ahead of the conference, so please share any links to info about funding initiatives you have and we will post them to the conference website.
